## Shows Up Many Misleading Points.

After a day of hard work the Senatorial Commission closed its work yesterday with Dr. Sloggett's hearing incomplete. Today will be given largely to the leper question, for Senator Burton has a letter which has started him to hearing.

When the session opened yesterday morning at the Hawailan Hotel Attorney General Dole testified concerning his office, and paid high compliments to his subordinates. Of the total persons employed 228 are Hawaiians. His deputy, he said, had not had a vacation for three years, and the increase of work was such that it was only by painstaking economy that the bills could be paid. The incidental fund of \$30,000 had been slightly exceeded, as, he explained, every item of expense not specifically appropriated for came out of this fund. Every cent spent was paid upon voucher.

The appropriation for his own salary he said had been cut, he recommending \$10,000 and the Legislature making it \$9000. He then read the entire appropriation for his department. Senator Mitchell wanted to know about the police system and in response to questions Attorney General Dole said the government here was centralized to an extent unknown in the United States but it was possible to run the government so only because of the small size of the country and because in certain portions of the Territory there was such sparse population as to make local telf-government impossible.

He went on to show that whereas in the United States there were separate taxes for each item of expense, here there is only one tax and this money s expended in every branch. As to the government, he said that every one who spoke the truth would say that it had been run in the interest of the public

Explaining the high cost of living, he told how when seeking an assistant he sought five young men here and could" salary which is too low, and had to send to the mainland for a man. He thought the cost of living here was nearly twice that in San Francisco.

During the reading there were many que tions brought out. When the coffee subject was touched Senators Foster and Burton showed much interest and Among the many points raised, when

the matter of labor was up, Senator Burton said that something had been said before the Commission as to the system of contractual labor and charges of bad treatment. Mr. Swanzy replied that any statement that a laborer was ill treated was absolutely and unequivocally false; the statement that the planters were cruel was untrue. He paid a compliment to the managers, who he said were clever men. He continued that while it was not a profitable or pleasant task to take off mud thrown, it was sometimes necessary to do it He then proceeded to meet some of the points which had been raised.

As to the charge that the houses were unfit for habitation, he said that any such statement must came from ignorance. Senator Burton saw that if the Ewa houses were samples they were good enough for any one.

The food was said to be unfit for humans, whereas except in the case of Japanese who had just landed, and who were furnished meat because they were unaccustomed to it, there was never any food furnished by the estates

The statement that no effort was made to secure white labor he said was untrue, as shown by his statement. He went over the experiments made by at Spreckelsville.

As to the two instances of cruelty alleged in reports, he said that these were the only points found in many years. He said reports of cruelty were not common.

He said the statement that the employees were subject to espionage and brutality was untrue. The statement that large bodies of

## Dickey Again Gets the Senatorial Plum.

MAUI, Sept. 13.—Last Monday morning, Sept. 8th, the Republican District Committee of Maul met at Wailuku Court House for the purpose of nominating one candidate for senator and nating one candidate for senator and six for representatives. Chairman W. F. Pogue called the meeting to order at 11 a. m., twenty-eight members being present either in person or represented by proxy.

It was decided that one nomination

for senator and one for representative should be made by each of the six divisions previously allotted by the party. The following were nominated, for senator, C. H. Dickey; for representatives, Joel Nakaleta of Molokai, S. Kellinoi of Walluku, Philip Pali of Lahaina, S. E. Kalama for Hamakuapoko, L. von Tempsky of Makawao, and W. P. Hala of Hana. By some misunderstanding S. E. Kaleikau nominated D. H. Kahaulello for senator. When the matter came to vote Dickey polled 21 of the 28 votes.

J. K. Josepa in caucus did a most generous act; he withdrew in favor of Haia though he stood first choice in the

Hana delegation.

Judge J. W. Kalua presided at the grand mass and ratification meeting held in the skating rink the same evening. The candidates nominated by the district committee each addressed the people. The mention of Prince Cupid's name by the chairman was received by

an evation. Trains ran from the different parts of central Maui, and the large hall was packed to the doors. It was rumored that a torch-light procession would pre-cede the meeting but the committee in charge were unable to perfect arrange-

## Charles Gibbs Met With Horrible Death.

Although warned over eight years just such a death and having once seen a man just escape with his life under similar conditions, Charles Gibbs, a foreman in the employ of Cotton Bros., threw caution to the winds yesterday and met death by having his skull cracked open by the almost two-ton hammer of the pile driver on which he was working. Dozens of other work-men witnessed the frightful killing of

Gibbs was foreman in the employ of Cotton Bros., in driving piles for the new wharves at the Bishop Estate docks. He has been working on this particular job for about a week. The piles have to be driven into the coral bottom of the dock. Drilling machines are used first to make holes in which The very best Lime and in the to drive the piles, but shortly after noon yesterday Gibbs found a place where he had to put down a pile which had not been drilled. The pile driver carried a drill and he set about with this to do the work himself. He placed the drill in the water and later had a small charge of blasting powder in the machine. While firing this machine Gibbs stood directly under the chute through which the big pile driver ham-mer comes down in driving piles. The nammer had been anchored by the use of one small timber at a distance of 30 feet up. On all other occasions there have been two small timbers holding the hammer, but on this one some one neglected to put the second one there. The pile driver barge is usually towed off a short distance while a charge of powder is being fixed, but Gibbs thought this charge so small that it would not be necessary to remove the

made homeless. Mr. Smith could no see how this entered into the justice of the claims, as those bills were paid by the Territory but Burton insisted upon having the figures. He said that the measure was put through the committee under pressure and he voted for i with reluctance, Senator Mitchell as well saying that he felt there was being established a bad precedent, and that he would have to meet questions, for any revival of the claim would meet with a hard fight. He wanted all the possible facts, so that the question could be met on the floor.

F. W. Macfarlane said he was the chairman of the Fire Court, and he wanted the commission to visit the quarters and see the system followed. Mr. Irwin, as a banker, explained how the banks opposed the issuance of warrants to prevent speculation, and none could tell of any speculation in the certificates.

The Commission gave some more time to the Hawaii Ditch Company project, Mr. McClanahan being on the stand. He recapitulated the testimony of his associates, saying however that he was never asked to sign any agreement of consolidation. After a long hearing he was asked if he was willing to permit the people of the district to settle the question as to the company which should be given the right to the water, and said he was. All of his associates answered the same question to the same way, but later Gehr was unwilling to

When asked if he would be willing to permit the local government to decide he said no, for there might be a cloud on the title as there had been so much difference in the opinions rendered. He said he knew Gov. Dole had absolute faith in his integrity. He favored the passage of the House bill, with amendments as suggested by Gov. Dole Questions by Senator Mitchell brought out the fact that in the opinion of Mr. McClanahan there would be no other company possible if the rights were granted to the Hawaii Ditch Company.

Herbert Gehr, of the Kohala-Hilo Railroad Company, was next on the stand and he was questioned at length, saying that he had talked of the water scheme with O'Shaughnessy, on the way to San Francisco, and he thought the matter was thus brought to the attention of McCrosson. His testimony brought also all the previously told facts about the meetings and the alleged agreement of Col. Parker to sign the document.

A. C. Gehr recalled got into hot water when he stated that he had expended some \$6,000 before hearing that was asked why he had not made an investigation before expending this money and could only say he did not think there was any other man interested. He was finally induced to answer a question as to what Col. Jones was to do, by saying that he was a man of influence and could assist in getting the franchise and any stock

Col. Parker wanted to know whether Jones had the most influence as court stenographer or adjutant general or whatever he was, and got only a laugh.

# MAN DEAD

## John Kanui Passed Away Early in Morning.

The "Grand Old Man" of Home Rulsounded the party slogan of the Hawailans to combine in the political body which has become known as the Independent Home Rule party, and who was its first honorary president, died at 2 o'clock yesterday morning at the Queen's Hospital. He was buried yesterday afternoon at 4 o'clock in the little cemetery of Puu o Kamalii, back of Palama, the remains being followed to the grave by a large concourse of Hawalians.

The aged Hawaiian publicist, who has been a striking figure in the affairs of his people, succumbed to an illness lasting only two days. On Wednesday he caught a slight cold which developed into a fever and he was conveyed to the hospital, where his feeble frame was able to withstand the inroads of the disease for only a few hours. His death was a surprise and a regret to the Hawaiian community, for he was looked upon with reverence by old and

The remains were taken to the undertaking establishment of Mrs. Williams and prepared for burial. They were yiewed during the day by a throng of Hawaiians, and at four the funeral was held, the pall-bearers being T. C. Polikapu, J. Keau, J. P. Kahanawai, J. M. Poepoe, S. H. Meekapu, D. Ai, J. According to plans now under discussion between the officials of the Rapid Transit Company and C. H. C. Moller, representing the owners of the stock and bonds of the Hawailan Tramways Company, there may be effected soon a merger of the interests of the two lines. Both sides admit now that nal calendar was completed yesterday the negotiations have reached such a stage as to make this outcome pracism is dead. Old John Kanul, who first | tically sure, but there are still certain features which have to be arranged.

Mr. Moller came down to Honolulu with the Rollins party, his visit being due in large part to representations by an official of the latter house, made to the London people, during a recent visit, when he was asked for an opinion as to the outlook for the older company. Since he has been here Moller has carried on his investigations, which led to the negotiations, and he has now reached such a stage that London has been cabled to secure the assent of the people there to the terms arranged.

The exact basis for the consolidation cannot be learned, but the gossip which has become current recently puts the figure to be paid for in the stock on one Kum Foo. Trial had by jury. and bonds of the Tramways at figures all the way from \$200,000 to \$475,000. Verdict guilty. Each sentenced to be imprisoned at hard labor for the term The Tramways Company has outstanding \$325,000 in stock and \$150,000 in of one year. bonds. The figure which is generally accepted on the street is \$250,000. It is also said the basis will be in the neighborhood of one share of the stock of public officer, with a weapon imminentthe Rapid Transit Company for each four shares of the Tramways stock.

The success of such negotiations will mean that there stands in the way of the completion of the Rapid Transit lines no bar and that the extensions will be pushed along, the city being covered within a short time. The plan would leave the streets of the city without the many tracks which are being put down on some of them and would lead to a settlement of all points at dispute to be imprisoned at hard labor for two between the two companies. It is understood that there will be immediate activity in the line of the completion of the Waikiki line and that up Nuuanu valley if the merger goes through.

of which the annexed drawing is a photographic fac-simile. She attributes her magnificent head of hair to frequent shampoos with CUTICURA SOAP, followed by light dressings of Curroura gently rubbed into the scalp. Previous to the use of Curr-CURA, her hair was dry, thin, and lifeless, and came out in handfuls to such an extent that she feared she would lose soon it.

This is but one of many remarkable cases of the preservation and restoration of the hair in seemingly hopeless cases by warm shampoes with CUTICURA SOAP, followed by light dressings of CUTICURA, purest of emollient skin cures. This treatment at once stops falling hair, clears the scalp of crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the rootswith energy and nourishment, and makes the hair grow on a clean, sweet, wholesome, healthy scalp, when all else fails.

MILLIONS OF WOMEN use CUTTOURA SOAP exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, and for all the purposes of the toilet, bath, and nursery.

### THEY SAY THINGS AWAY BACK EAST

The Kanakas of the Hawaiian Islands have about as much fear of the huge man-eating sharks that infest the Hawaiian waters as we have of one-month-old fox-terrier pups," said a naval officer who recently returned from the Asiatic station by way of the islands. "One moining, a couple of months ago, when our ship was lying in Honolulu harbor, a big banana barge, propelled by three mus-cular fine-looking, nearly nude Kanaka men, pulled alongside of us to peddle the fruit among the men forward. Just as they got the barge close to the ship the three Kanakas began to jabber excitedly in their queer, musical language and to feel of the edges of the knives suspended by lanyards around their necks.

The eyes of those Kanakas were keener than ours, and they had seen a big man-eating shark asleep directly beneath the lighter, the water being so clear down that way that objects can be seen through it to a great depth. It didn't take these turee giant-muscled Kanakas more than 10 seconds to shuffle out of their few clothes. Then they removed the strings from their long knives, grasped the knives in their right hands stepped gently over the side of the lighter, hung to the gunwales of the lighter with their left hands for a moment or so, and then, altogether, they gave that queer diving wriggle to their legs in which they are so expert, and disappeared from the surface. We couldn't see them going down on account of the commotion and consequent bubbles they made in the

#### "How very sudden," people said. But if they could see back a few years, they would 11.15 note the slow process of undermining of the 7.72 great organs, that preceded the fall. The 6.80 7.10 blood is tainted, the heart weakens, the liver enlarges or hardens, the kidneys are overtasked. Some day, under the combined pressure, the body breaks down "suddenly." But this undermining process does not go on without warning. There is friction in the machinery of the body. The heart is irregular in its action. The liver fails of its duty. The kidneys show their condition in the tainted current that flows by them. The stomach breaks down. The appetite fails. There is shortness of breath, dizziness, sleeplessness, foul mouth, and bad taste. These 0.98symptoms are some of the signs of the undermining of the health. You can stop this undermining of your health 14.34 and life by using Kickapoo Indian Sagwa. 10.58

It searches out the weak places in the system. It gives strength where strength is needed. It does this because it restores the natural vitality of weak and enfeebled organs. It drives out obstructions, purifies the blood, and brings about a harmonious action of the chief organs of the body. Kickapoo Indian Sagwa is sold under a guarantee. Your money refunded if it does not fulfill every claim. Isn't this offer fair ? At all druggists.
